I'm doing interviews at that time (in fact, pretty much all day tomorrow). I think Michele can call in.

Sent from my BlackBerry 10 smartphone on the Verizon Wireless 4G LTE network.

Abi set time with Jared for tomorrow (you have calendar invite). I confirmed with Sylvia that ORC is doing some additional work on the chronology already developed and will take the lead. She doesn't think anything is needed from us, we can just come listen.

Subject: CA UIC authorization chronology

All,

Jared would like a briefing on the history and key documents, in chronological order, of our CA UIC authorization. If there's a chronology handy, please forward to me at your earliest convenience. If not,

may I prevail on your staff to put one together and send me? Thanks much!
